**Il s'élève et pourra passer dans la classe supérieure si l'élève n'a pas subi une**

2. 1-112-- same as 1-111 except change 19

20. *Chlorophyll a* and *Chlorophyll b* are the two main photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chlorophyll a is the primary pigment, while chlorophyll b acts as an accessory pigment, transferring energy to chlorophyll a.
